Entertain all year round with the elegant eZip

The eZip blind will enhance and protect your outdoor living all year round. Designed and manufactured in Australia, the unique track system locks your fabric into special side tracks for complete weather protection. Fabric will be totally secure and will not sag or flap.

- Weldable zip system enables fabric to roll smoothly
- Double sided handle on the Spring assisted bottom rail allows internal & external operation
- 95mm heavy duty weighted bottom rail (Crank & Motorised only) provides optimum fabric tension
